Summary

Computer Science undergraduate with strong foundations in Java, Python, Machine Learning, and backend development. Built 4+ real-world projects across healthcare, sustainability, and agriculture domains, including ML models with up to 85% accuracy.

Education

B.Tech in Computer Science Engineering

2024–2028

Bennett University, Greater Noida
CGPA: 8.3

Class XII (2024): 91%

Class X (2022): 97%

St. Thomas College, Lucknow

Technical Skills

Languages: Java, Python, C++, SQL, Assembly Language

Web: HTML, CSS, JavaScript (Basics)

Frameworks: Spring Boot, FastAPI, Node.js, Next.js (Basics)

Machine Learning: scikit-learn, Pandas, NumPy

Databases: MySQL, MongoDB

Tools: Git, GitHub

Projects

Healthcare Assistant Application

React.js, Node.js, ML

- Developed a healthcare platform with 5+ modules including symptom checker, mental health quiz and guide, emergency support, and menstrual health tracker
- Built an ML-based disease prediction model with 80–85% accuracy
- Integrated frontend and backend for low-latency responses and scalability

Carbon Footprint Calculator

Python

- Designed application analyzing 10+ environmental parameters for emission estimation
- Enabled consistent analysis across multiple household profiles

Resume Analyzer

Streamlit, ML

- Built NLP-based resume screening tool using TF-IDF and Cosine Similarity
- Automated job matching with relevance scoring system

Crop Recommendation System

ML, Next.js

- Developed Random Forest model using soil and weather data
- Designed responsive UI for fast and user-friendly recommendations

Leadership & Experience

Design Team Head — RPA Club

- Led team delivering assets for 5+ technical events
- Mentored junior designers and maintained branding consistency

Student Council Sub-Head — IT Committee

- Coordinated 10+ college events and supported digital initiatives
- Assisted in website updates and execution

Certifications

Python Programming — Great Learning

Core Java Programming — Great Learning / Wingspan

Machine Learning using Python — Great Learning

Data Structures and Algorithms — Infosys Springboard

Database Systems — Saylor Academy

Statistics — Saylor Academy
