Summary

Cybersecurity undergraduate with hands-on experience in penetration testing, network security, and CTF competitions. Secured top 5% rankings in multiple national CTF events. Eager to contribute to enterprise security teams.

Education

B.Tech in Information Technology 2023–2027

VIT Vellore **CGPA: 8.5**

Class XII (2023): 89% | Class X (2021): 93%

Technical Skills

Languages: Python, Bash, C, PowerShell

Security Tools: Nmap, Metasploit, Burp Suite, Wireshark, Nessus, John the Ripper

Domains: Network Security, Web App Pentesting, OSINT, Reverse Engineering, Forensics

OS: Kali Linux, Ubuntu, Windows Server

Tools: Git, VirtualBox, Docker

Projects

Vulnerability Scanner Python, Nmap, CVE Database

- Built automated scanner detecting 15+ common vulnerability classes
- Integrated CVE database lookups for severity scoring and remediation suggestions
- Tested against 3 intentionally vulnerable VMs (DVWA, Metasploitable)

Network Intrusion Detection System Python, Scapy, ML

- Developed IDS using ML-based anomaly detection on network packet data
- Achieved 87% detection rate with under 5% false positives on test traffic

CTF Write-Up Repository Various

- Documented 30+ CTF challenge solutions across web, crypto, pwn, and forensics categories
 - Repository has 200+ GitHub stars from the security community
-

Experience

Security Analyst Intern — CyberShield Technologies May 2025 – Jul 2025

- Assisted in vulnerability assessment of 5 client web applications
 - Drafted detailed security reports and remediation plans for client review
-

Certifications

- CEH (Certified Ethical Hacker) — EC-Council
- CompTIA Security+ — CompTIA
- Practical Ethical Hacking — TCM Security
